Hi, my name is Chun!

A UX/UI designer focused on web- and app-design. I love solving complex problems in the form of a digital product. The defining skills as a designer, is that I am always critical to the pixel and love prototyping. When designing I always design with the user in mind In my free time I love to hang out with friends, do sports like football (soccer) and volleyball.

Skills as a designer

Skills as a dev
